- Sophisticated and elegant design • Exclusive marble, glass and brushed steel
- Soft, diffused light through the opalized glass shade

Glossy is the epitome of tasteful and sophisticated design. Danish designer Maria Bertsen has created a table lamp that oozes of Nordic minimalism, where the combination of the exclusive materials, marble, brushed steel and opal white glass contributes to an incredibly elegant design. Glossy is named after the shiny surface of the opal white glass, which lets a soft and comfortable light shine through.

Marble is a natural material and therefore lines, colours and patterns may vary from lamp to lamp.
