

RUSTY® UP/DOWN

outdoor LED surface-mounted wall light round rust
CCT switch 3000/4000K

In multi-faceted rust tones, RUSTY® UP/DOWN gives an attractive appearance to facades. For a unique look that will give this wall-mounted light a contrasting effect on any surface. This is made possible by the special chemical treatment of the FeCSi steel used, which only becomes more beautiful as it is exposed to the elements. These indirect lights are fitted with energy-efficient and long-lasting SMD LEDs. To alter the lighting mood, select the desired light colour before installation using the integrated CCT switch (3000K/4000K). RUSTY® UP/DOWN is easy to install and perfectly suitable for outdoor areas thanks to its IP65 protection rating.
