

Eclipse Ellipse
INGO MAURER 2017

Steel, aluminium. Eclipse Ellipse is a play of light and shadow. The lighting object is made for wall use. When switching on the piece, a composition of an ellipse and circles appears on the wall. The user is the co-creator. Both the inclination of the large disc as well as the position of the small disc can be adjusted. As in many of his previous creations, Ingo Maurer leaves a lot of room for the users' personal imagination and the relation of all objects and furniture in the space. Eclipse Ellipse also emits pleasant, indirect light. A perfect solution for those who wish to combine artistic expression and functional light on one of their walls.

Light source

Dimmable LED 12 W, 1130 lm, 2700 K, CRI 97, EEC A+. With built-in LED. The light source is not exchangeable by the user, but by an electrician.

Technical data

For 200 - 240 volts or 100 - 125 volts. Dimmable. Recommended dimmers: 220 - 240 V, Busch-Jaeger 6523 U; 110 - 125 V, Lutron Skylar K S-600P.
